2019 publications list

Data extracted from the
RD&E Research Repository
https://rde.dspace-express.com/

Data extracted: 28th May 2020
Report created: 3rd June 2020
Introduction

This report provides a summary of research publications which were authored by staff from the Royal Devon & Exeter NHS Foundation Trust, or staff with honorary contracts with the RD&E in 2019. Data was collated from PubMed and other sources and deposited in the RD&E Research Repository (https://rde.dspace-express.com/).

The RD&E Research Repository launched in March 2015 and is an online collection of data on research publications which have been published by RD&E authors, or those with honorary contracts with the RD&E. It also contains full-text journal articles (within publisher permissions) and other research content such as conference posters, as well as researcher profile pages.

Please note that this report does NOT include: conference abstracts, letters, comments or posters.

Publications are listed in the order in which they were added to the repository.

For further information about the repository, please contact the RD&E Research Repository team – rde-tr.ResearchRepository@nhs.net.

Summary
