Introduction

This report provides a summary of research publications which were authored by staff from the Royal Devon & Exeter NHS Foundation Trust, or staff with honorary contracts with the RD&E in 2019. Data was collated from PubMed and other sources and deposited in the RD&E Research Repository (https://rde.dspace-express.com/).

The RD&E Research Repository launched in March 2015 and is an online collection of data on research publications which have been published by RD&E authors, or those with honorary contracts with the RD&E. It also contains full-text journal articles (within publisher permissions) and other research content such as conference posters, as well as researcher profile pages.

Please note that this report does NOT include: conference abstracts, letters, comments or posters.

Some articles may appear in more than one section, when they contain authors from multiple disciplines.

Click on the link to the item in the RD&E Research Repository to find the full details of the article, including external links to publisher’s sites, and in some cases, the full-text of the article.

If your publications are missing from this report and you would like to include them in the RD&E Research Repository, please contact the RD&E Research Repository team – rde-tr.ResearchRepository@nhs.net.
Summary
